Mother One offers a wide range of services in web design, I.C.T hard ware, software development, networking, internship, internet access, training, wireless services, information system auditing, ICT policies, 3Danimation, out sourcing, webmail, research and IT business.

VISION STATEMENT

To be a center of solutions supporting a sustainable I.C.T-enabled environment all around the world. INFONITI GROUP is ready to provide its services in the area of software development / website design / digital marketing / SEO, SMO, PPC and Business consulting. Our innovations primarily focus on producing the very best quality work for our clients giving it a first priority and making deliveries on time.

We have identified and listed below the Needs and Solutions that we will want to address in this project.

WHY WE DEVELOPED **CAMPUS COVER**

The Institution spends more money doing most of the work manually and spends more time. **Campus Cover** an Institution management solution to manage and helping to keeping all information related to other departments of a college / school in one place. **Campus Cover** is preferred amongst college / school as it provides them with an error-free system and does not require updating. It helps institution function more productively. The Institution is looked at as a national school as it has students coming in from all over Country.

Furthermore, **Campus Cover** application will be maintained by our Company employee.

Our company will provide a fresh new school management system design that is easy to navigate and provides useful information to current subscribers.

The design will integrate the current logo and color palette so it will maintain a familiar look. It will also have records of all teachers, students, none teaching staff member.

INNOVATION IN EDUCATION

An innovative , smart and easy to use system that is all set to revolutionize Education Management.

It has a powerful , flexible and customizable framework that conforms to a College / School or Institute of higher learning for easy management system , even while on the go
